ADVANCED

➤ EXPERIENCE

CAJA DE SALUD DE CAMINOS

May 2023 - Aug 2023

- Administration system with PHP and JS for management of orders, sales and a daily product inventory.
- Designing a user interface from scratch and implementing it in a web interface using CSS.
- This successfully developed software replaced the way that the kitchen manager used to take orders and make reports, avoiding inconsistencies in the information.
- It increased the speed of capturing customer order by 200% and improved efficiency in kitchen management and control of assets and liabilities in the sales.

➤ EDUCATION

UNIVERSIDAD DE LOS ANDES

Student

I'm working on my graduation project which is soon to be finished.
